

The Hagan Scholarship

Tips on how to submit a successful application:

1. Follow the Instructions when completing the Online Form and when preparing and assembling the Submittal PDF. Incomplete submittals are not processed.
2. The Personal Essay and Four-Year Plan are important documents. These documents will also provide you with an opportunity to distinguish yourself from other high achieving applicants.
3. Provide a high-quality PDF and a good color photo. Set the scanner setting to Black/White, not color or gray scale, to minimize the size of the PDF. Do Not use photos of documents.
4. Double-check your work. Confirm the correct Adobe PDF has been uploaded to the provided Link by opening the PDF after it has been uploaded.
5. Provide a personal email address that will be valid for one year. Your email address cannot be changed until the fall semester of college following high school graduation. Do not provide a parent's email address or school email address. We communicate by email only and only with the applicant to avoid miscommunication. Set you Spam settings to receive HSF emails. Do Not forward HSF emails, if forwarded and the recipient "unsubscribes" from receiving HSF emails you will also be "unsubscribed" and will not receive HSF emails. We only send essential emails, typically 2 or 3 emails during the application process.
6. Complete the FAFSA at least one month before the Deadline, it may take a week or more to obtain the SAR and your EFC. The FAFSA application must include all parent information.

The Application Deadline is December 1, 2022.

Sincerely,

Dan Hagan, Trustee
Hagan Scholarship Foundation
