

## Hagan Scholarship Foundation

### Performance of Hagan Scholars

Eight award-year classes of Hagan Scholars have graduated college to date. The mean graduation GPA 3.81, the mean number of credit hours earned 144, the mean number of hours worked in the 12 months prior to their senior year of college 558. Most recipients graduate college debt-free with several academic honors and several thousand dollars in their personal Schwab Brokerage Account. Hagan Scholars are high achieving, goal-focused individuals, ready to realize their full potential and achieve long-term financial security.

### Graduating Class of 2022

#### Recipient Statistics

#### High School Data

The highest achieving having the greatest need

1. All recipients attended rural public high schools
2. Average number of students in the high school graduating class 104  
Number of students in the smallest graduating class 8
